WELCOME TO OUR PRACTICE!

We are a family oriented practice offering a continuum of care from the instant of birth through adulthood. Our practice is dedicated to providing exceptional and compassionate health care for children and adults of all ages. Our award-winning medical professional team includes five med-peds specialist physicians, each board certified in *both* Internal Medicine and Pediatrics.

We are committed to quality, personalized, state-of-the-art patient care in a pleasant environment while responding to the needs of our patients for information, access, and service.

We take the convenience of family care service to the next level. The difference is that each of our physicians is double-board certified in both Internal Medicine and Pediatrics. We are able to treat complex chronic problems, round in the hospital, nursing home and physical rehabilitation facilities, and provide a full spectrum of care for patients of all ages.

- Perform procedures in office such as wart/mole removal, stitches
- X-rays and lab work performed on site
- Department of Transportation Long Haul Exams; we have DOT cards
- Well-infant and well-child care
- Women's health; we do pap and pelvic exams
- Seasonal items
 - Flu shots; Flu Mist
 - Seasonal allergies
 - Sports physicals
 - We use shot blockers to decrease pain with immunizations

WALK-IN CLINIC

We understand that many medical visits can't be foreseen or planned. Each day at least one of our providers has devoted time to seeing walk-in patients. That way, if your regular doctor cannot see you on your schedule, you can still get the help you need in a timely manner from our staff--and all in the same convenient location.

Using this system, acute illnesses, cuts, sprains, and other minor emergencies can be seen urgently and without appointment—even on Saturdays! Best of all, your medical records and information are available on-site, just like for your regular office visits. X-rays, strep testing, urinalysis, pregnancy testing, and other lab work are available as needed to help with your care.

While most of your visits to our clinic will be set up with your primary care doctor, we hope you will find this walk-in service helpful and convenient... for life's little emergencies.

We are conveniently located at Westgate Circle off Moores Lane East—directly behind the Cool Springs Green Hills Grille on “Restaurant Row” and near Studio Gavin Hair Salon

CARE

PHYSICIANS

As each physician is dual-board certified, we have the increased capacity to provide thorough, comprehensive care for our patients throughout each phase of life. We have in-depth knowledge and databases on a wide range of topics to give you the right diagnosis and treatment using up-to-date standards of care.

Bradley Bullock, MD, FAAP

Attended the University of Florida for both his undergraduate degree and MD. A graduate of the Vanderbilt University Residency Program (VUMC), he is a co-founder of the practice. He has been previously awarded Vanderbilt's "Preceptor of the Year".

Daniel Edmondson, MD, FACP, FAAP

Received his undergraduate degree from UT-Knoxville and his MD from UT-Memphis College of Medicine where he was elected to Alpha Omega Alpha, the medical honor society. After residency at VUMC, he co-founded CSIMP.

Tiffany Hines, MD, FAAP

Received undergraduate degree in Zoology from Auburn University and her Doctor of Medicine degree from the University of South Alabama. A graduate of the VUMC residency program, she loves taking care of families and individuals of all ages, from newborns to grandparents.

Julianne Stout, MD, FAAP

Received degree in Biological Sciences at Purdue University where she was elected to Phi Beta Kappa, and her MD from Indiana University School of Medicine, where she was named to the Alpha Omega Alpha Medical Honor Society.

Peter Swarr, MD, FAAP

Received undergraduate degree from Haverford College and his MD from University of Vermont College of Medicine where he was elected to the Alpha Omega Alpha Medical Honor Society. He was chief resident of Internal Medicine at Vanderbilt.

what is Med-Peds?

ABOUT US

Choosing a Med-Peds specialist provides the best of both worlds – Internal Medicine and Pediatrics. Med-Peds physicians are trained in both Internal Medicine (Adult Medicine) and also in the care of children and infants (Pediatrics). Through this combined training, a Med-Peds physician is capable of performing all the duties of the individual specialists.

All five physicians at Cool Springs Internal Medicine and Pediatrics are board certified in **both** Internal Medicine and Pediatrics through the American Board of Internal Medicine (ABIM) and the American Board of Pediatrics (ABP).

Internal Medicine-Pediatrics trained physicians embody the skills, knowledge, and dedication of pediatricians and internists in a single physician. Capitalizing on the focus, depth, and evidence base of training in and practicing the two disciplines, Med-Peds physicians bring a unique insight and scope to the care of patients throughout their life span.
